November 2011 Certification Process Training

Wallingford, CT - The CCB will be offering a CCB Certification Process overview training on November 7, 2011 at the Morris Foundation, 402 East Main Street, Waterbury, CT from 9 a.m. to 4 p.m.

The Certification Process course is designed to assist participants with the certification process and is ideal for anyone interested in learning more about certification with the CCB. This course is also designed to provide participants with tools and information to simplify the certification process and to answer commonly held questions about the certification process. Although these courses have been offered in the past for specific credentials (CAC-Certified Addiction Counselor, CCDP-Certified Co-Occurring Disorders Professional, etc.), the workshop is designed to provide assistance to people seeking certification for all CCB credentials. This workshop will provide an overview of CCB products and services as well as address questions about licensure and certification of alcohol and drug addiction professionals with the Department of Public Health in Connecticut.

This session includes a coaching session for all participants, designed to provide technical assistance around specific workforce development and certification goals. This is intended for individuals that have specific questions about the certification process and application submission standards. Participants will have the opportunity to have materials reviewed by a CCB staff member to guide their individual certification process.

There is no fee for this training, and it will be held at the Morris Foundation, 402 East Main Street, Waterbury, CT.

Preregistration is required and seating is limited. To register, please RSVP to events@ctcertboard.org. Please contact Jeffrey Quamme, Associate Director at jquamme@ctcertboard.org with questions.
