Certification process courses are designed to assist participants with the certification process and are ideal for anyone interested in learning more about certification with the CCB. These courses are also designed to provide participants with tools and information to simplify the certification process and to answer commonly held questions about the certification process. Although these courses have been offered in the past for specific credentials (CAC – Certified Addiction Counselor, CCDP- Certified Co-Occurring Disorders Professional, etc.), the workshops are now designed to provide assistance to people seeking certification for all CCB credentials. These workshops will provide an overview of CCB products and services as well as address questions about licensure and certification of alcohol and drug addiction professionals with the Department of Public Health in Connecticut. These sessions include a coaching session for all participants.

Coaching sessions are designed to work with individual candidates to provide technical assistance around specific workforce development and certification goals. These sessions are intended for individuals that have completed a certification process course and have specific questions about the certification process and application submission standards.

All sessions will be held in the Luis Marcano Training Center, located at 100 South Turnpike Road, Suite C, Wallingford, CT.
