The CCB Science 2 Service® Distance Learning Program

The CCB Science 2 Service® Distance Learning Program is a self-paced learning program that was developed using science-based materials within the public domain such as **TIPs—Treatment Improvement Protocols (SAMHSA/CSAT)**, **TAPs—Technical Assistance Publications (SAMHSA/CSAT)**, research reports and training manuals. This program allows participants to earn CCB approved training hours that can be applied towards initial certification or renewal while reading high quality science-based content. The featured documents are widely available within the public domain, free of charge and, in many cases, participants may already be familiar with the content. The purpose of the program is to provide participants with an introduction to the content in a structured manner while providing technical assistance and verification of learning through the use of pre and post-tests.

The Science 2 Service® Distance Learning Program is simple:

Step 1: Pre-test

You will be asked to complete a brief pre-test which will typically consist of 6—15 multiple choice or true/false questions designed to measure your knowledge of the subject prior to reading the learning modules for the distance learning program. You are not required to correctly answer any of these questions in order to move forward. The pre-test data will be used to identify your current knowledge of the subject and to compare your answers on the post-test items. All pre-test questions will appear in the post-test. Please do not be overly concerned with your performance on the pre-test items as they are used primarily for internal purposes by the course developers.

Step 2: Read the Material Contained in the Learning Module

Each Science 2 Service® Distance Learning course will contain learning modules with various reading content. Each learning module will be a PDF file which will contain all of the reading material necessary for that module. Although the entire source documents will be provided to all participants, the learning modules are available for your convenience.

Step 3: Post-test

After you have read all of the material from a learning module, you will be asked to complete a post-test that will typically contain 20 to 40 items. In order to successfully complete a module, you must correctly answer at least 80% of the items contained in the post-test. If you do not answer at least 80% correctly, you will be advised of the questions that you missed, and you will be able to retake the post-test at your convenience. Once you answer at least 80% of the items correctly, you will have completed the module and will be able to move on with additional modules in the course until you complete all modules.

Certificate of Completion

Your certificate of completion will be emailed to you once you complete all of the course modules (pre-tests and post-tests for all learning modules) and score 80% or better on all of the post-tests.

If your agency is interested in making the Science 2 Service® Distance Learning program available for your staff, please contact the CCB office for program rates.

New!
Lower Distance Learning Prices

\$4.00 per hour for most courses & discounted pricing of \$3.00 per hour for CCB Certified Professionals!

Questions about the program can be emailed to Jeffrey Quamme at jquamme@ctcertboard.org

Discounted Distance Learning Packages

The CCB is now offering discounted distance learning packages for individuals interested in completing multiple courses. The packages are designed to give participants the choice of courses offered through our distance learning catalog for a full year. Three packages are available for you to choose from based upon the number of hours you would like to complete.

<p>Package 1 50 hours</p>	<p>\$139.00/year Only \$2.78 per hour!</p> <p>This package includes 50 hours of distance learning courses. Participant may complete up to 50 hours within 1 year.</p>
<p>Package 2 75 hours</p>	<p>\$175.00/year Only \$2.33 per hour!</p> <p>This package includes 75 hours of distance learning courses. Participant may complete up to 75 hours within 1 year.</p>
<p>Package 3 Unlimited</p>	<p>\$295.00/year As little as \$1.97 per hour!</p> <p>This package includes unlimited distance learning courses. Participant must complete courses within 1 year.</p>

The CCB Science 2 Service[®] Distance Learning Program New Organizational Membership Program

The CCB Science 2 Service[®] Distance Learning Program is now available through Organizational Membership!

If your agency is interested in offering your staff high quality and affordable distance learning courses, the CCB is now working with organizations to offer a New Organizational Membership Program.

Organizational Membership allows you to make the entire S2S distance learning program available to your staff at an annual contracted rate for a fraction of the cost. If you are interested in an Organizational Membership, please contact Jeffrey Quamme at the CCB office for details by email at [jqquamme@ctcertboard.org](mailto:jquamme@ctcertboard.org) or call 203.284.8800.

The CCB Science 2 Service[®] Distance Learning Series Packages

Beginning on page 6 you will find Distance Learning Series Packages designed specifically for the following topics: Medication Assisted Recovery, Addiction Counseling and Supervisory Competencies, and Co-Occurring Recovery Counseling. These course can be taken individually or as a package.

CCB-Approved Distance Learning Providers

While much of the training received by Connecticut's behavioral healthcare workforce is provided in workshop and classroom settings, there are also a number of quality providers of online training content that may also appeal to individuals holding or seeking credentials offered by the Connecticut Certification Board, Inc. To learn more about some of these online training providers, please visit their website links below.

CCB Approved Distance Learning Providers

ALLCEUs - AllCEUs provides continuing education to addictions and mental health professionals throughout the nation. We offer three options to meet your needs: Unlimited, online, multimedia CEUs for \$99 per year; Ala Carte CEUs for \$3/credit hour or Instructor-led online training (virtual classroom). Our CEUs are NBCC and NAADAC approved in addition to being approved by the Connecticut Certification Board. You can even try a free 4 CEU class. www.allceus.com

Distance Learning Center for Addiction Studies—Internet-based educational service that provides comprehensive training and information in the field of addiction studies. www.dlcas.com

Greenbriar Treatment Center Training & Publications—Greenbriar Treatment Center is a new and growing provider of trainings, seminars, home study courses, books, and workbooks for addiction counselors, social workers, psychologists, residential care workers, nurses, aides, and anyone involved in the care of people coping with mental illness or addiction. Ken Montrose is the Training and Publications Director for Greenbriar Treatment Center. Mr. Montrose has provided training for numerous mental health and chemical dependency treatment agencies. www.greenbriartraining.com

Labans Online Training—International leader in home study trainings for chemical dependency counselors, licensed professional counselors, mental health professionals, and social workers. www.last-homestudy.com

NAR Associates—We offer courses approved by the Connecticut Certification Board. You work at your own pace, and have access to our nationally known Instructors. Our course work has also been approved by NAADAC (Approved Education Provider #452), the Association of Social Work Boards (ASWB ACE Provider #1137), and the National Bureau of Certified Counselors (NBCC Provider #6194), so you may also apply your clock hours to a national or social work credential. Visit www.cacrenewal.com/CCBApprovedCourses.html

Netsmart Technologies—Our Learning Management System offers a robust online course library, extensive reporting tools and compliance tracking to effectively manage training programs and staff development. Courses include clinical training with continuing education credits (CEUs), regulatory, corporate compliance, HR, soft skills, management and technology topics. Visit us at www.ntst.com

New England • The Addiction Technology Transfer Center—Distance learning initiative to provide training to participants and throughout the world. www.attcnetwork.org/regcenters/index_newengland.asp

OnlineCEUcredit.com - 20% off all CEU courses by entering the special Connecticut Certification Board Discount Code: CCB20. Choose from 150+ online continuing education credit courses. Get CEUs for addiction counselors, clinical supervisors, co-occurring disorders and prevention professionals. You can view all CEU Course Content FREE. View & Score Test FREE and get free mp3 CEU course content Audio Downloads. We also offer courses for social workers, counselors, psychologists, and MFTs. NAADAC (#679), ASWB (#1073), NBCC (#6102), and APA (#1537). www.onlineceucard.com

PESI — Improves the quality of mental health and healthcare services by providing quality continuing education to nurses, counselors, social workers, psychologists, therapists, and other professionals nationwide. www.pesi.com/onlinece

The Center for Addiction Studies and Research - The Center for Addiction Studies and Research is a nationally recognized provider of distance learning coursework for individuals seeking certification and recertification in the chemical dependency field. Our program allows individuals to keep up-to-date with the latest trends in addiction treatment and research. www.centerforaddictionstudies.com

What is the difference between CCB-approved distance learning and non CCB-approved distance learning? CCB-approved distance learning providers are required to have their content, standards, and evaluation tools (post-tests) reviewed by the CCB to ensure they meet or exceed CCB distance learning standards. CCB credentialed professionals are encouraged to use CCB-approved providers to ensure not only high quality content, but, in many instances, approved content that can be applied more generally to meet certification standards. This is particularly true for renewals since individuals can apply approved content to 100% of their educational requirements, whereas only 25% of their training requirements can be met with distance learning content that has not been CCB-approved. For initial certification, individuals may apply up to 75% of CCB-approved distance learning courses towards educational/training requirements; the other 25% may be fulfilled by distance learning courses that are not CCB-approved. Wherever possible, it is highly recommended that you select distance learning courses from CCB-approved providers from the list above.
